

# easy cucumber lime punch

## Ingredients:

One or two trays of ice  
2 liter bottle lemon-lime soda  
1 12-oz can frozen limeade  
1 cucumber, sliced thin  
Fresh lime wedges for garnish, optional

## Instructions:

In a large pitcher or bowl, add as much ice as you want.  
Add the soda and the frozen limeade.  
Add all of the sliced cucumbers and lime wedges (or reserve some to garnish individual glasses).  
Stir together until the limeade melts.

If you serve it right away, the cucumber flavor will be light. Let it sit for an hour or two in the fridge for a stronger cucumber flavor.
