ROUGE Pro Tips for BOLD LIPS:

- Scrub your lips with sugar/coconut oil mix to remove flakey skin.
- Powder around the lip-line can protect from bleeding.
- Pair bold lip with nearly bare skin for a more modern look.
- Beware petroleum based lipstick.
- Matte lasts longer.
- Use a lip brush for initial application.
- Don't apply gloss on top of lipstick. You'll regret it.
- If you use lipliner, use in same color as lipstick, and fill in. Apply color on top.
