easy cucumber lime punch

Ingredients:
- One or two trays of ice
- 2 liter bottle lemon-lime soda
- 112-oz can frozen limeade
- 1 cucumber, sliced thin
- Fresh lime wedges for garnish, optional

Instructions:
- In a large pitcher or bowl, add as much ice as you want. Add the soda and the frozen limeade.
- Add all of the sliced cucumbers and lime wedges (or reserve some to garnish individual glasses).
- Stir together until the limeade melts.

If you serve it right away, the cucumber flavor will be light. Let it sit for an hour or two in the fridge for a stronger cucumber flavor.
